Back-end technologies: Node | Express | Python (fundamentals)

Database technologies: MongoDB | My SQL | Firebase | Microsoft SQL Server

Authentication: Google OAuth 2 | Passport.js w/ jwt

PROJECTS

React-Colors app | <https://github.com/Kerry-Jr/colors-app> | <https://the-colors-app.herokuapp.com/>

Application that allows you to make and store material-ui react color palettes.

- Solo project; completing all phases of the development life cycle, focusing on coding, testing, and debugging.
- Documenting application changes and developing updates.
- Identify best practices for architecture, performance, and accessibility.
- HTML5, CSS3, Material-UI, JavaScript, React, Next.js, copy-to-clipboard, React-router, HOC, chroma.js, and deployed with Heroku.

Blog Site | <https://github.com/Kerry-Jr/Project02> | <https://project02blog.herokuapp.com/>

Blogging application made with a group.

- Front-end technologies and user-interface design.
- Project lead in a group of four.
- Develop and design reusable React.js components
- Knowledge of effective UI / UX strategies and techniques.
- HTML5, CSS3, Bootstrap, JavaScript, React, Redux, moment.js and MySQL

Plan-it | <https://github.com/Kerry-Jr/Planet> | <https://blooming-atoll-78659.herokuapp.com/>

Web application demonstrating authentication strategies.

- Built in message boards for communication and user dashboard to edit profiles.
- Responsible for development of responsive, web-based user interface.
- Focused on the user-interface, the 2- way communication message boards and implemented the JWT authentication strategy for the app.
- Delivering front-end code to backend development teams.
- Web application integration with RestFul API.
- HTML5, CSS3, Bootstrap, JavaScript, React, Redux, passport.js, moment.js, and MongoDB

EXPERIENCE

Lead Project manager and implementation Parsemony Inc.

December 2012 – August 2019
Oakland, CA

Built and maintained workstations, networks, and server infrastructure for more than 2 dozen produce companies in the bay area.

Test online ordering apps for each customer.

Deployed our software solution from beginning to end for new customers. Setup in house servers, cloud servers, and website hosting for online ordering.

Key Accomplishments:

- Lead software implementation specialist.
- Project manager and head of online ordering testing.
- Successfully added more clients to a subscription-based model over traditional one-time payment.
- Developed 3rd party tool for QuickBooks Desktop software.

EDUCATION

Certificate in Full Stack Web Development: University of California, Berkeley, Ca, 2020

- 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, javascript, jQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express & ReactJS.

Bachelor of Science in Criminal Justice, Law Enforcement Option: California State University, East Bay, Hayward, California
